Balance sheet

Cash flow waterfall

PROS

- Strong free cash flow generation over 5 years signals healthy business fundamentals
- Revenue growing at above 15% CAGR over 5 years reflects strong business momentum
- Net profit compounding at above 20% over 5 years creates significant shareholder value
- Very high interest coverage ratio reflects negligible financial stress from debt servicing
- Revenue growing slower than profits shows improving operating leverage and scale benefits

CONS

- Return on capital employed below 10% suggests the business is not generating sufficient returns on invested capital
